February 2021

Promotions valid from : Friday 29th January to Friday 26th February

There has been a lot of national attention drawn to the matter of keeping families, and especially children, properly fed during this current lockdown.

And although much lays in the hands of those in positions of authority, we in the food industry can do our bit to ensure that there is a plentiful supply of tasty, nutritious and affordable products on the shelves.

You will therefore find in this February edition great deals on pizzas, family favourites such as chips, fish fingers, chicken dippers, veg and much much more!!

In our ice cream section we continue to bring you amazing promotions on, not just impulse ice cream, but on those products families will want to have in their freezers for that family night in. Take a look at pages 16 right through to page 22.

We hope that these deals will enable you to pass on your savings, to your customers at this time and, as has been stated many times, if we all pull together we can get through this.

With our very best wishes to you and your families from the team at Consort Frozen Foods.

Whilst we endeavour to keep the information, contained within this brochure, up to date and correct, we make no representations or warranties of any kind, expressed or implied, about the completeness, accuracy, reliability, suitability or availability with respect to the information, products, or services contained within the brochure for any purpose. KEEP SUSTAINABILITY ON THE MENU

MANUFACTURING THE WORLD'S BEST ECO PACKAGING SINCE 2006

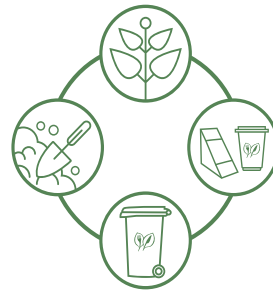

Disposables were invented for hygiene, and Vegware was invented for sustainability. Meet your customers' demand for eco-friendly disposables with Vegware's extensive range of compostable packaging.

IN STOCK FROM JANUARY 2021!

There's an extensive range of products available to Consort to suit all your grab-and-go needs.

COMPOSTABLE VS BIODEGRADABLE

Biodegradable tells us nothing about how fast something can break down. Vegware is compostable – meaning our packaging can break down in under 12 weeks in composting conditions, and is therefore suitable for industrial composting.

GOOD FOR YOUR MENU & GREAT FOR THE PLANET

Vegware is made from plants using renewable, lower carbon, recycled or reclaimed materials, and designed to be commercially compostable with food waste, where accepted. Your customers will love the quality, look and feel of our premium products! And Vegware's Environmental team can work with sites to help them compost their Vegware.

We believe that the Vegware packaging is not only better for our planet but also improves the quality of our food
